

Dear PJCC Active Members,

We are disappointed to report that today San Mateo County was elevated to the State of California's Pandemic Purple Tier, due to rising cases of COVID-19 coronavirus infections in the county. As a result, the San Mateo County Health Officer requires the closure of indoor fitness.

Therefore, effective Tuesday, December 1, 2020, the PJCC will temporarily close all INDOOR FITNESS (upstairs in the gymnasium, Fitness East and West, and the Group Exercise Studio; and the Vulnerable Population Studio downstairs).

And, you should know that we are undaunted. Our impeccable safety track-record stands. Our PJCC community will continue to persevere under these less-than-ideal circumstances.

OUTDOOR FITNESS will continue, and together we will stand strong: Swimming, Group Exercise, Personal Training, Small Group Training, and access to our dynamic virtual content with the instructors you love will remain open and available for active Center members.

Beginning Tuesday, December 1, you will enter the PJCC from the swim deck gate, accessed from South Road (on the side of the main building). The front entrance automatic doors (and main building at large) will be temporarily locked and unavailable during business hours.

UNWAVERING COMMITMENT TO SAFETY

We remain steadfast in our unwavering commitment to health and safety. You can be confident that we will continue to maintain our rigorous sanitation protocols and standards for all outdoor areas. Outdoors, masks will be mandatory for all staff, as well as for members other than when working out.

WHAT YOU CAN EXPECT

You will continue to [make your reservations through the MINDBODY application](#). Our terrific virtual fitness will continue to be available to you through [MyPJCC](#).

We will bill for the month of December as normal. We are committed to retain as many staff as possible, and those who will go on furlough, we are striving to maintain their health coverage. Please support us in supporting them! Your membership is critical now to ensure that the PJCC "remains and sustains".

In our 70+ years, we have never weathered a crisis of this magnitude. And I don't believe

the agency leadership has ever written to our members and referenced a crisis for the PJCC. And we are in a crisis now and need you with us. We are confident that we will survive this crisis, with your generous support.

For those who do not choose to support our PJCC community and elect to place your membership on freeze, [you may do so here.](#)

CAN'T WAIT TO SEE YOU OUTDOORS & ONLINE!

We look forward to seeing you outdoors on the swim deck and in the Functional Fitness Park, and for heart-pumping online workouts with our PJCC community. Stay healthy and stay safe. Now it's more important than ever that we protect the health of ourselves, our families, and each other! Please do your part – be rigorous in your mask wearing, physically distance, hand wash and hand sanitize even more than you think necessary, and remember that we will get through this together.

In wellness solidarity,

Paul Geduldig, Chief Executive Officer

Seth Hazen, Chief Wellness Officer
